The reason you choose SMARTCO

Embroidery, Print and Hotfix

Our factory has owned embroidery machinery which can do some embroidery procedures.

And we have a partnership embroidery factory, which can handle any complicated embroidery process, for example, sequins, beading, logo embroidery and complicated patches that can strengthen all kinds of delicate styles for clients.

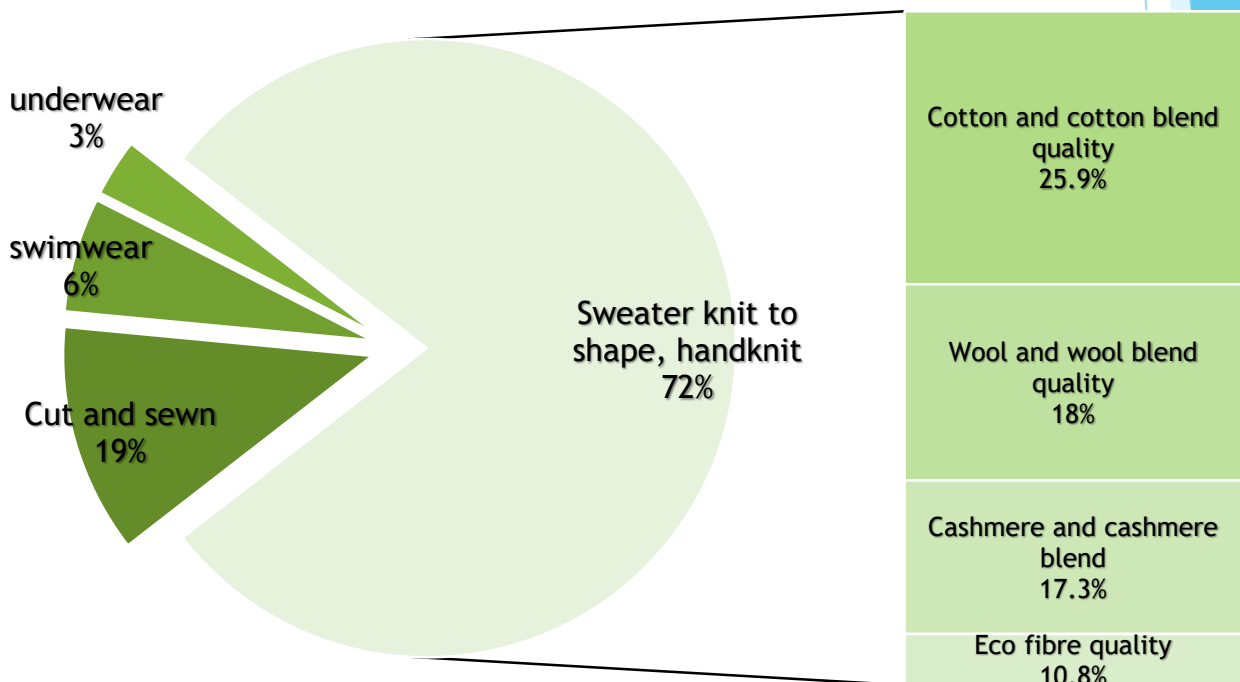

Know more about SMARTCO

Our company's business is divided into 2 sections, this is our value :

- **Cut and sewn (included woven fashion, swimwear and underwear)**
- **Sweaters knit to shape, handknit**

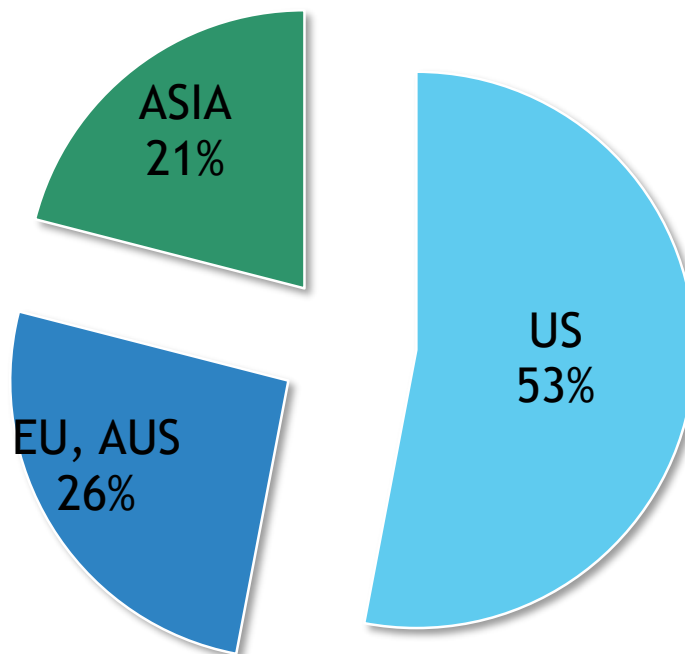

We are well understood for all kinds of yarn quality, no matter synthetic fibre, wool or cashmere quality.

Especially wool quality is an increasing quantity item.

Know more about SMARTCO

The largest market sharing for garments is the **US**, but **EU, Japan** and **ASIA** market that sums up are not inferior **US** portion, they should not be underrated and we foresee there will have increased in coming seasons.

Know more about SMARTCO

Machine and Gauge distribution :

We have over 200 sets of auto-machine,
39% for fine gauge (12-16gg), and
50% for course gauge (3-7gg)

The nearest half portions of the auto
machines are SHIMA SEIKI Japan, in order
to fulfil different knitting patterns and be
more flexible for complex styles.
